MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)

As management of the Virginia Board of Accountancy (Board), the Board offers readers of these financial statements this narrative overview and analysis of the financial activities of the Board for the fiscal year ended June 30, 2011.

Financial Highlights

The assets of the Board exceeded its liabilities at the close of the most recent fiscal year by \$613,711 (net assets), a decrease of \$116,289 in comparison with the prior year. Of this amount, \$450,023 represents unrestricted net assets, which may be used to meet the Board's ongoing obligations to citizens and creditors.

At the close of the current fiscal year, the Board's governmental funds reported combined ending fund balances of \$482,285 a decrease of \$90,828 in comparison with the prior year. The committed portion of the fund balance is \$479,971 which is available for spending at the Board's discretion.

At the close of the current fiscal year, the total fund balance for the Board's Operating Fund was \$68,121, or approximately 7 percent of total operating expenditures. The Board also has a Trust Account to be used for the study, research, investigation, and adjudication of matters involving possible violations of statutes or regulations relating to the profession of public accounting, or for any other purpose the Board determines is relevant to its statutory purposes and cannot otherwise be funded through its operating fund. At the close of the current fiscal year, the Trust Account reported an ending fund balance of \$414,164.

The Board's operating expenses and mandatory transfers exceeded its licensing and examination fees for the fifth year in a row creating a revenue shortfall. During the current fiscal year the Board initiated an internal reorganization that resulted in the creation of two new full-time classified positions, a 3% bonus approved by the Governor was issued to all full-time positions, and the board incurred a one-time expense for the reconfiguration of existing office space which increased the Board's operating expenses. The Board has actively worked to minimize costs through the creation of operating efficiencies and increased automation. However, the costs of inflation and recent shifts in expenditure patterns have outpaced the Board's ability to control costs solely through operating efficiencies, making a proposed fee increase necessary.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Board's basic financial statements, which are comprised of three components: (1) the entity-wide financial statements, (2) the fund financial statements, and (3) the Notes to Financial Statements.

Entity-Wide Financial Statements

The entity-wide financial statements are designed to provide readers with a broad overview of the Board's finances, in a manner similar to private-sector business.

The Statement of Net Assets presents information on all of the Board's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Activities presents information showing how the Board's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are

reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned, but unused vacation leave).

The entity-wide financial statements can be found on pages 7 and 8 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Board, like other state and local government agencies, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Board's funds are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions as governmental activities in the entity-wide financial statements. However, unlike the entity-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government agency's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the entity-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the entity-wide financial statements. By doing so, readers may better understand the long-term impact of the Board's near-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Board has two governmental funds, both of which are special revenue funds. Information is presented in separate columns in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance for each fund.

The Board adopts an annual operating budget for its Operating Fund. The Board's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. A budgetary comparison statement has been provided for the Operating Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 9 through 13 of this report.

Entity-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Board, assets exceeded liabilities by \$613,711 at the close of the most recent fiscal year.

By far the largest portion of the Board's net assets (73 percent) is unrestricted, meaning they may be used to meet the Board's ongoing obligations to citizens and creditors. The remaining 27 percent of the Board's net assets reflects its investment in capital assets. The Board uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Net Assets

	2011	2010
Current assets	\$ 558,481	\$ 616,983
Capital assets	163,688	169,626
Total assets	<u>722,169</u>	<u>786,609</u>
Current liabilities	76,196	43,870
Long-term liabilities	32,262	12,739
Total liabilities	<u>108,458</u>	<u>56,609</u>
Net assets:		
Invested in capital assets	163,688	169,626
Unrestricted	450,023	560,374
Total net assets	<u>\$ 613,711</u>	<u>\$ 730,000</u>

At the end of the current year, the Board reports a positive balance in both categories of net assets. The same situation held true for the prior fiscal year.

The Board's net assets decreased by \$116,289 during the current fiscal year. This decrease represents the degree to which payroll and other operating expenses exceeded licensing and examination fees. Key elements of this change are as follows:

Changes in Net Assets

	2011	2010
Program revenues:		
Charges for services	\$ 929,900	\$ 987,256
General revenues:		
Interest income	-	4,262
Miscellaneous revenue	-	-
Monetary penalties	59,014	94,263
Total revenues	<u>988,914</u>	<u>1,085,781</u>
Licensing and enforcement expenses	<u>1,025,882</u>	<u>902,723</u>
Increase (decrease) in net assets before transfers	(36,968)	183,058
Transfers/(net)	<u>(79,321)</u>	<u>(228,653)</u>
Increase (decrease) in net assets:	(116,289)	(45,595)
Net assets - July 1	<u>730,000</u>	<u>775,595</u>
Net assets - June 30	<u>\$ 613,711</u>	<u>\$ 730,000</u>

Financial Analysis of the Entity's Special Revenue Funds

As noted earlier, the Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Board's financing requirements and fee structure. In particular, unreserved fund balances may serve as a useful measure of the Board's net resources available for spending at the end of the fiscal year.

Program Revenues and Expenditures

At the end of the current fiscal year, the Board's special revenue funds reported combined ending fund balances of \$482,285. The committed portion of the ending fund balances is \$479,971, meaning it is available for spending at the Board's discretion.

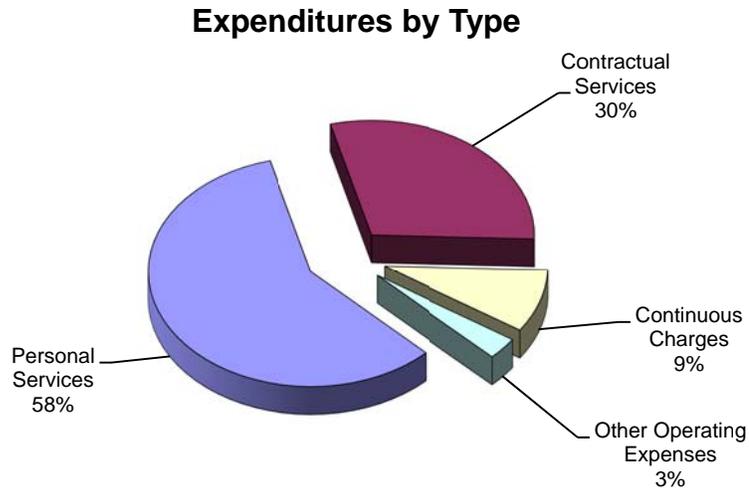

The Operating Fund is the chief operating fund of the Board. At the end of the current fiscal year, the total fund balance of the Operating Fund was \$68,121. As a measure of the Operating Fund's liquidity, it may be useful to compare the fund balance to total fund expenditures. The fund balance represents approximately 7 percent of total expenditures.

The fund balance of the Board's Operating Fund decreased by \$90,828 during the current fiscal year. Key factors affecting the change in fund balance are as follows:

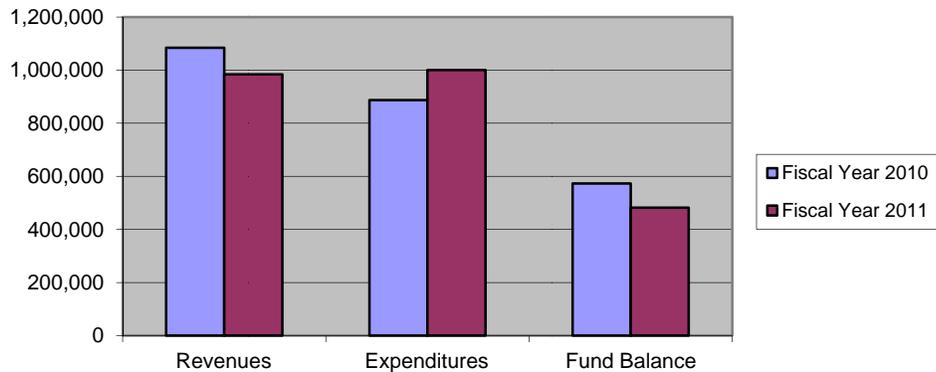

- Revenues from licensing and examination fees decreased by \$57,356 (5.8%) during the year, primarily due to a decrease in the number of reinstatement applications as compared to fiscal year 2010 which experienced an unprecedented spike in reinstatements. Adjusted for a spike in reinstatement applications, revenues have remained consistent over the past few years.
- Contractual services expenses increased by \$77,927 (35.7%) primarily related to an increase in information technology related charges as provided by the Virginia Information Technologies Agency (VITA).
- Personal services expenses increased by \$17,026 (3.0%) primarily related to a 3% bonus issued in December 2010. In addition the Board initiated an internal reorganization which created two new full-time classified positions during December 2010 and February 2011; however, this additional expense was offset by the decrease in Workforce Transaction Act expense incurred in the previous year due to elimination of one full-time position.
- Equipment expenses increased by \$17,958 during the year primarily due to one-time costs related to the reconfiguration of existing office space.
- Mandatory transfers to the General Fund decreased by \$114,083 during the year, down from \$134,390 to \$20,307 primarily due to a mandatory, one-time non-general fund cash transfer of \$91,945 during the previous year.

The Trust Account has a total fund balance of \$414,164. The fund balance of the Board's Trust Account did not change during the current fiscal year. Effective fiscal year 2011, the State Comptroller did

not allocate any interest earnings to the Board per section 3-3.03 of the 2011 Virginia Acts of Assembly, Chapter 890.

Revenues, Expenditures, and Fund Balances Operating and Special Enforcement Funds Combined

Operating Fund Budgetary Highlights

The Board adopts an annual operating budget for its Operating Fund. The Board’s budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. The Board originally budgeted total expenditures of \$919,454. During the year the Board processed a budget amendment to increase appropriations by \$187,563, resulting in a final budget for total expenditures of \$1,107,017. During the year, revenues exceeded budgetary estimates primarily due to an increase in the number of licensees and CPA Examination applicants. Actual expenditures were less than budgetary estimates, lessening the need to draw upon cash balances.

Capital Assets

The Board’s investment in capital assets at June 30, 2011, amounts to \$163,688 (net of accumulated depreciation). This amount consists of software costs for the Board’s computerized licensing system and capitalized leasehold improvements. Additional information on the Board’s capital assets can be found in Note 5 on page 16 of this report.

Economic Factors and Next Year’s Budget and Rates

The Board’s major source of revenue is licensing and examination fees. The Board experienced an increase in the number of licensed individuals, firms and CPA Examination candidates in the current fiscal year. However, revenue from licensing and examination fees has been stabilizing over the last three years and is not expected to change significantly in the coming year.

	<u>CPA License Holders</u>	
	<u>At June 30, 2011</u>	<u>At June 30, 2010</u>
Individuals	24,147	23,278
Firms	<u>1,194</u>	<u>1,157</u>
Total	<u>25,341</u>	<u>24,435</u>

Payments to VITA for systems maintenance is expected to increase significantly in the coming year. These payments are non-discretionary and the Board has no ability to affect the amounts billed by this agency. Other expenditures, including personnel, are expected to increase during the next fiscal year. As a result, total budgeted expenditures are expected to increase in the coming year. All of these factors were considered in preparing the Board’s budget for the upcoming fiscal year.

FINANCIAL STATEMENTS

VIRGINIA BOARD OF ACCOUNTANCY
STATEMENT OF NET ASSETS
As of June 30, 2011
With Comparative Figures for 2010

	Governmental Activities

NOTES TO FINANCIAL STATEMENTS

THE VIRGINIA BOARD OF ACCOUNTANCY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Board regulates the practice of accounting in Virginia, protecting and serving the citizens of the Commonwealth by administering the laws and regulations for their financial health, safety, and welfare. The Board's major activities include reviewing applications to ensure applicants are competent to enter the public accounting profession; determining continued qualifications for licensure; conducting audits of continuing professional education; and adjudicating enforcement cases and disciplining those who do not follow acceptable, ethical, or professional standards.

A separate report is prepared for the Commonwealth, which includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The Board is an agency of the Commonwealth and is included in the Commonwealth's Comprehensive Annual Financial Report.

B. Fund Accounting

The activities of the Board are accounted for in its special revenue funds. Special revenue funds account for transactions related to resources received and used for committed or specific purposes.

The Board has two special revenue funds. The Operating Fund is the Board's primary operating fund. It accounts for all financial resources of the Board, except those resources held in the Trust Account. The Trust Account is to be used for the study, research, investigation, and adjudication of matters involving possible violations of statutes or regulations relating to the profession of public accounting, or for any other purpose the Board determines is relevant to its statutory purposes and cannot otherwise be funded through its operating fund. Both funds are considered major funds of the Board.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Entity-Wide Financial Statements – The entity-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the Board's financial activities. For the most part, the effect of interfund activity has been removed from these statements. The Statement of Activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues consist of charges to regulants. Other revenues not included among program revenues are reported instead as general revenues.

The entity-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. License fees are recognized as revenue when received.

Governmental Fund Financial Statements – The financial statements also include separate fund financial statements. The Operating Fund and Trust Account are reported in separate columns in the fund financial statements. The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within sixty days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

D. Fund Balance

With the implementation of GASB No. 54, the previous fund balance classifications of Reserved and Unreserved have been changed to Non-spendable, Restricted, Committed, Assigned, and Unassigned. Non-spendable fund balance includes amounts that cannot be spent because they are either a) not in spendable form or b) legally required to be maintained intact such as the corpus of a permanent fund. Committed fund balance includes amounts that can be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority.

E. Prepaid Items

Prepaid assets for rent, insurance, and similar items are recognized when purchased and expensed when used.

F. Summarized Comparative Data

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Board's financial statements for the year ended June 30, 2010, from which the summarized information was derived.

2. BUDGETARY INFORMATION

The Board adopts an annual operating budget for its Operating Fund. The Board's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. Unexpended appropriations at the end of the fiscal year generally lapse. However, they may be reappropriated for expenditure in the following fiscal year. The Governor, as required by the Code of Virginia, submits a budget composed of all proposed expenditures for the state, and of estimated revenues and borrowing for a biennium, to the General Assembly.

The budget is prepared on a biennial basis; however, the budget contains separate appropriations for each year within the biennial budget, as approved by the General Assembly, and signed into law by the Governor. For management control purposes, the budget is controlled at the program level.

Appropriations of special revenue funds may allow expenditures in excess of the original appropriations to the extent that revenues of the funds exceed original budget estimates and such additional expenditures are approved by the Governor through supplemental appropriations. Budgetary amounts shown in the Statement of Revenues, Expenditures, and Changes in Fund Balance –

Budget and Actual represent the original budgeted amounts. A budget amendment to increase the Board's appropriation was processed during the current fiscal year.

3. CASH WITH THE TREASURER OF VIRGINIA

All state funds of the Board are held by the Treasurer of Virginia, pursuant to Section 2.2-1800, Code of Virginia, who is responsible for the collection, disbursement, custody, and investment of state funds. Each fund's equity in pooled state funds is reported as "Cash Held by the Treasurer of Virginia" and is not categorized as to credit risk.

4. RECEIVABLES AND DUE TO THE STATE LITERARY FUND

The Board levies and collects penalties from regulants found guilty of violating the Board's statutes or regulations. The proceeds from these penalties are deposited into the state's Literary Fund in accordance with Section 19.2-353, Code of Virginia. Consequently, receivables are offset by a corresponding amount Due to the State Literary Fund and are not available to meet the Board's current operating needs. At June 30, 2011, the amount Due to the State Literary Fund for collections on monetary penalties was \$13,500.

	<u>June 30, 2011</u>
Gross receivables	\$41,500
Less: allowance for doubtful accounts	<u>28,000</u>
Net Receivables	<u>\$13,500</u>

5. CAPITAL ASSETS

The following presents capital activity for the year ended June 30, 2011:

	<u>Balance at June 30, 2010</u>	<u>Acquired</u>	<u>Deleted</u>	<u>Balance at June 30, 2011</u>
Software	\$ 183,388	\$ -	\$ -	\$ 183,388
Tenant improvements	<u>17,249</u>	<u>15,134</u>	<u>-</u>	<u>32,383</u>
Total depreciable assets	<u>200,637</u>	<u>15,134</u>	<u>-</u>	<u>215,771</u>
Less accumulated depreciation	<u>(31,011)</u>	<u>(21,072)</u>	<u>-</u>	<u>(52,083)</u>
Capital assets, net	<u>\$ 169,626</u>	<u>\$ (5,938)</u>	<u>\$ -</u>	<u>\$ 163,688</u>

The Board capitalizes all software and equipment with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. This includes capitalizing personal service costs and vendor payments associated with developing its licensing software for internal use. The Board capitalized the tenant improvement costs associated with preparing the Perimeter Center building for occupancy to the extent that they exceeded \$5,000.

Capital assets are reported at historical cost less accumulated depreciation. Depreciation of software and equipment costs is expensed on a straight-line basis over their estimated useful life of ten years. Depreciation of tenant improvement costs is expensed on a straight-line basis over the ten year life of the lease agreement.

6. TERMINATION BENEFITS PAYABLE

The Workforce Transition Act of 1995 provides state employees involuntarily separated in a layoff because of a budget reduction, agency reorganization, workforce downsizing or other cause not related to job performance or misconduct with transitional severance benefits. All full-time, classified state employees and certain qualifying part-time salaried state employees covered by the Virginia Personnel Act are eligible for benefits under the Workforce Transition Act.

The employee receives severance payments determined by the amount of the employee's continuous state service and continued employer share of contribution toward health insurance and group life insurance premiums for up to 12 months from the employee's layoff date.

There was no termination benefits payable at the end of fiscal year 2011.

7. COMPENSATED ABSENCES

Compensated absences reflected in the Statement of Net Assets represent the amounts of vacation, sick, and compensatory leave earned by the Board's employees but not taken at June 30, 2011. The amount reflects all earned vacation, sick, and compensatory leave payable under the Commonwealth's leave payout policies. Information on the Commonwealth's leave payout policies is available at the statewide level in the Commonwealth's Comprehensive Annual Financial Report.

Balance at <u>June 30, 2010</u>	<u>Increases</u>	<u>Decreases</u>	Balance at <u>June 30, 2011</u>
<u>\$12,739</u>	<u>\$40,062</u>	<u>\$(20,539)</u>	<u>\$32,262</u>

8. LEASE COMMITMENTS

On August 2, 2007, the Board moved its offices to the Perimeter Center Building at 9960 Mayland Drive. The move brought the Board together with five other state agencies to facilitate the use of shared space and services. On August 29, 2007, the Board entered into a ten-year operating lease for the new space. Total rental expense for the fiscal year ended June 30, 2011, was \$55,180.

A summary of future obligations under lease agreements as of June 30, 2011, follows.

<u>Year Ending June 30,</u>	<u>Amount</u>
2012	\$ 56,575
2013	58,105
2014	59,703
2015	61,344
2016	63,031
2017	64,765
2018	<u>44,314</u>
	<u>\$ 407,837</u>

9. PENSION PLAN AND OTHER POST RETIREMENT BENEFITS

The Board's employees are employees of the Commonwealth. The employees participate in a defined benefit plan administered by the Virginia Retirement System (VRS). The VRS also administers life insurance and health related plans for retired employees. Information related to these plans is only available on a statewide level in the Commonwealth's Comprehensive Annual Financial Report. The Commonwealth, not the Board, has overall responsibility for contributions to these plans.

10. RISK MANAGEMENT

The Board is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Board participates in insurance plans maintained by the Commonwealth. The state employee health care and worker's compensation plans are administered by the Department of Human Resource Management and the risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, faithful performance of duty bond, and automobile plans. The Board pays premiums to each of these Departments for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth's Comprehensive Annual Financial Report.

VIRGINIA BOARD OF ACCOUNTANCY

As of June 30, 2011

The Board is comprised of five Certified Public Accountants who hold Virginia licenses, one educator in the field of accountancy who holds a Virginia license, and one citizen member. The Governor appoints each member to a term of four years and no member may serve more than two consecutive terms.

Chairman, Joint Legislative Audit
And Review Commission

Board Members
Virginia Board of Accountancy

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities and the major funds of the **Virginia Board of Accountancy** (Board) as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board's management. Our responsibility is to express opinions on these financial statements based on our audit. The prior year partial comparative information has been derived from the Board's 2010 financial statements and, in our report dated March 1, 2011, we expressed unqualified opinions on the respective financial statements of the governmental activities and the major funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1A, the basic financial statements of the Board are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the aggregate remaining fund information of the Commonwealth of Virginia that is attributable to the transactions of the Board. They do not purport to, and do not, present fairly the Commonwealth of Virginia's overall financial position as of June 30, 2011, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Board as of June 30, 2011, and the respective changes in financial position thereof, and the respective budgetary comparison for the operating fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management Discussion and Analysis on pages 1 through 6 is not a required part of the basic financial statements, but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with Government Auditing Standards, we have also issued our report dated March 12, 2012 on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.
