The Honorable Timothy M. Kaine

The Honorable M. Kirkland Cox
Chairman, Joint Legislative Audit
and Review Commission

We have audited the financial records and operations of the following agencies for the year ended June 30, 2009. The Secretary of Administration's Division of Selected Agency Support Services provides administrative support for these agencies.

Secretary of the Commonwealth
Virginia-Israel Advisory Board
Interstate Organization Contributions

Office of Commonwealth Preparedness
Office for Substance Abuse Prevention
Citizens' Advisory Council

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Audit Objectives

Our audit's primary objectives were to evaluate the accuracy of recorded financial transactions on the Commonwealth Accounting and Reporting System, review the adequacy of the agencies' internal controls, and test compliance with applicable laws and regulations.

Audit Scope and Methodology

Agency management has responsibility for establishing and maintaining internal control and complying with applicable laws and regulations. Internal control is a process designed to provide reasonable, but not absolute, assurance regarding the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

We gained an understanding of the overall internal controls, both automated and manual, sufficient to plan the audit. We considered significance and risk in determining the nature and extent of our audit procedures. Our review encompassed controls over the following significant cycles, classes of transactions, and account balances.

Expenses
Appropriations
Revenues

We performed audit tests to determine whether agency controls were adequate, had been placed in operation, and were being followed. Our audit also included tests of compliance with provisions of applicable laws and regulations. Our audit procedures included inquiries of appropriate personnel, inspection of documents, records, and contracts, and observation of the agency's operations. We tested transactions and performed analytical procedures, including budgetary and trend analyses.

Conclusions

We found that the agencies properly stated, in all material respects, the financial amounts recorded and reported in the Commonwealth Accounting and Reporting System. The agencies record their financial transactions on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The financial information presented in this report came directly from the Commonwealth Accounting and Reporting System.

We noted no matters involving internal control and its operation that we consider necessary to be reported to management. The results of our tests of compliance with applicable laws and regulations disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Exit Conference and Report Distribution

We discussed this report with management on September 21, 2009.

This report is intended for the information and use of the Governor and General Assembly, management, and the citizens of the Commonwealth of Virginia and is a public record.
