Dear General Assembly Member:

REVENUE STABILIZATION FUND

This Office is providing a report of the required calculations for the Revenue Stabilization Fund. Appendix A provides historical information concerning the establishment of the Fund and the requirements surrounding it.

CALCULATION OF MAXIMUM FUND ALLOWED (Dollars in Thousands)

<u>Years</u>	<u>Tax Revenues</u>
2018	\$18,794,912
2019	19,718,337
2020	20,476,114
Average for three years	19,663,121
Maximum fund allowed (15% of average)	\$ 2,949,468

CALCULATION OF CONSTITUTIONAL DEPOSIT

As of June 30, 2020, certified tax revenues increased by 3.84 percent between fiscal years 2019 and 2020, and the average revenue growth for the preceding six years was 4.08 percent. Under the provisions of the Revenue Stabilization Fund, the difference between last year's revenue growth and the average growth is **negative** 0.24 percent. Since the difference between last year's revenue increase and the average growth is negative, there is no requirement to make a deposit to the fund based on fiscal year 2020 tax collections. Exhibit 1 provides certified tax revenue amounts used in the calculation. The Comptroller's General Fund Preliminary Annual Report includes a general fund balance restriction of \$77,409,780 for the 2021 mandatory deposit based on fiscal year 2019 tax collections.

Fiscal Year 2020 Activity

In June 2020, in accordance with Item 265 B. of Chapter 1283 of the 2020 Acts of Assembly, a deposit of \$262,941,731 was made to the Revenue Stabilization Fund. The required deposit was based on actual collections during fiscal year 2018. There were no withdrawals from the Fund during the year. Exhibit 2 provides the funding progress of the Fund through June 30, 2020.

CALCULATION OF STATUTORY DEPOSIT

Section 2.2-1829 of the Code of Virginia, as discussed in Appendix A, requires the Governor to include an additional deposit to the Revenue Stabilization Fund in his budget recommendations, if certain conditions occur. As shown in Exhibit 3, the growth of certified tax revenues does not meet all of the required conditions. Therefore, the Governor does not need to include an additional deposit in his budget recommendations.

PROJECTED ACTIVITY AND BALANCES

To provide information to the General Assembly on the impact of future revenue changes, we have performed pro forma calculations on the projected deposit to the Fund using three different revenue forecasts for fiscal year 2021 as shown in Exhibit 4. The pro forma calculations are based on the following: the official revenue forecast as reflected in Chapter 1289 of the 2020 Acts of Assembly and the June 2020 standard and alternative pessimistic forecasts as included in the Interim Economic Outlook and Revenue Forecast through Fiscal Year 2022 report. Based on the forecasted revenues under each model for fiscal year 2021, there is a projected mandatory deposit for fiscal year 2023 when applying the official revenue forecast; however, there is no projected mandatory deposit based on the standard and alternative pessimistic forecasted revenues. Further, under certain circumstances, there are statutory requirements for additional deposits; however, none of these conditions occur using any of the forecasted revenues for fiscal year 2021.

Article X, Section 8 of the Virginia Constitution, as discussed in Appendix A, establishes the requirements for making a withdrawal from the Revenue Stabilization Fund. Pursuant to Item 274 of Chapter 1289 of the 2020 Acts of Assembly, there is no planned withdrawal from the Fund for the fiscal year ending June 30, 2021.

HISTORICAL INFORMATION

Exhibits 5 and 6 provide historical information on the Revenue Stabilization Fund including a graphical illustration of fund balance by fiscal year and a schedule of deposits and withdrawals.

APPENDIX A HISTORICAL INFORMATION

Mandatory Deposit

Article X, Section 8 of the Virginia Constitution and the enabling legislation established the Revenue Stabilization Fund, and requires this Office to report to the General Assembly the following:

1. certified tax revenues for the calculation of the Revenue Stabilization Fund;
2. the maximum size allowed of the Revenue Stabilization Fund; and
3. the amount of the mandatory deposit to the fund.

The amount in the Revenue Stabilization Fund is not to exceed fifteen percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales as certified by our Office for the three fiscal years immediately preceding. The General Assembly is required to make deposits to the Revenue Stabilization Fund to equal at least 50 percent of the total of: certified tax revenues for the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in certified tax revenues collected for the most recently ended fiscal year, and the average annual percentage increase in certified tax revenues collected for the six fiscal years immediately preceding the most recently ended fiscal year.

During fiscal year 2019, § 3-5.21 of Chapter 854, 2019 Acts of Assembly, required certified tax revenues to exclude any amounts transferred from the general fund to the Taxpayer Relief Fund used to provide refunds pursuant to the fourth enactment of Chapters 17 and 18, 2019 Acts of Assembly. This reduction was only applicable to fiscal year 2019 certified tax revenue. Item 265 A. of Chapter 1283 of the 2020 Acts of Assembly requires this Office to report to the General Assembly on or before November 1 of each year.

Statutory Deposit

Legislation passed during the 2003 General Assembly Session added a requirement for an additional deposit to the Revenue Stabilization Fund under certain conditions. The provisions of this change were effective July 1, 2003. The conditions are as follows:

1. a growth of the certified tax revenues collected in the most recently ended fiscal year of eight percent or greater than the certified tax revenues collected for the immediately preceding fiscal year;
2. a growth of the certified tax revenues for the most recently ended fiscal year greater than 1.5 times the average percentage increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year; and

3. the estimate of general fund revenues prepared in accordance with Section 2.2-1503 of the Code of Virginia for the fiscal year in which the deposit is to be made is at least five percent greater than the actual general fund revenues for the immediately preceding fiscal year.

If these conditions exist, the Governor must include in his budget recommendations, submitted to the General Assembly in the subsequent session, an amount equal to at least 25 percent of the product of the certified tax revenues collected in the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in the certified tax revenues collected for the most recently ended fiscal year and the average annual increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year.

Withdrawals

Per Article X, Section 8 of the Virginia Constitution, the General Assembly may appropriate an amount for transfer from the Fund to compensate for no more than one-half of the difference between the total general fund revenues appropriated and a revised general fund revenue forecast presented to the General Assembly prior to or during a subsequent regular or special legislative session. However, per Article X, Section 8 no transfer shall be made unless the general fund revenues appropriated exceed such revised general fund revenue forecast by more than two percent of certified tax revenues collected in the most recently ended fiscal year. Furthermore, no appropriation or transfer from such fund in any fiscal year shall exceed more than one-half of the balance of the Revenue Stabilization Fund.

Item 267 D.1 – D.4 of Chapter 836 of the 2017 Acts of Assembly contained additional guidelines for determining the amounts to use in the withdrawal calculation. The guidelines are as follows:

1. For purposes of determining a transfer from the Revenue Stabilization Fund to the general fund as a result of a downward revision in general fund revenues, the term “total general fund revenues appropriated” shall mean the general fund operating and capital appropriations for each year of the biennium contained in the Appropriation Act which is in effect at the time when such downward revision in general fund revenues is made.
2. In accordance with Article 10, § 8, Virginia Constitution, and § 2.2-1830, Code of Virginia, the amount of the transfer shall not exceed the lesser of one-half of the balance of the Revenue Stabilization Fund or one-half of the forecasted shortfall in revenues.
3. The anticipated shortfalls in general fund revenues for fiscal years ending June 30, 2017, and June 30, 2018, shall be computed by comparing the revised forecast for “Total General Fund Resources Available for Appropriation” as shown in § 3 of the first enactment to the total general fund revenues appropriated for each

year of the biennium as contained in the general appropriation act as it became effective on July 1, 2016 (Chapter 780 of the Acts of Assembly of 2016).

4. For purposes of computing the shortfall in revenues, the revised forecast referenced in paragraph 3 above shall consist of the revised forecast of revenues and transfers presented to the Governor's Advisory Council on Revenue Estimates on November 28, 2016, adjusted for any technical revisions pursuant to current law. Any subsequent policy-based adjustments to revenues or transfers that are dependent upon the passage of legislation or other budgetary action that requires approval by the 2017 General Assembly shall not be considered as part of the adjustments to the forecast for purposes of calculating the revenue shortfall in fiscal year 2017 or fiscal year 2018.
